Dan Kennedy

CS student,
former arts
admin, always
an artist

There's a lot of
systems in the
world.
Ecosystems,
political systems,
design systems.
I've decided that
I'm into 'symbolic
systems'. That
cuts across
languages,
programming, and
anything that
operates with
symbols, signs
and codes.

Specifically, I'm
interested in full
stack web
development,
linguistics, art,
writing and a lot of
languages - from
German and

Education

2015-19 **BSc
Computer
Science,**
